Debbie Detmer

Chair and board members,

I am an Opponent of hb 2541.

Kansas Rural Center has a "Regenerative Agriculture" bill. Regenerative is what farmers do. It is crop rotation, NO till programs, livestock rotation on crops. ETC, ETC

The federal Government has grabbed our word and are using it to describe reduced farm production.

This is a money grab to divert money for more of the 30 x30 land grab.

Please look further than their words.

Thank you
Debbie Detmer
