ABOUT US

Monica Kelsey founded Safe Haven Baby Boxes in 2015 after an inspiring trip to South Africa. During this trip, Monica saw a baby box in action and saw how it provided a safety net for parents in crisis. Monica made it her mission to help parents in crisis as her own birth mother was when she abandoned Monica as an infant. The first step is raising awareness and educating the public about the Safe Haven laws. Safe Haven Baby Boxes launched the first baby box in America at a fire station in April 2016.

Safe Haven Baby Boxes provides an anonymous option for parents to safely surrender their infant. Illegal abandonments show us that mothers are seeking to keep their identity secret. We seek to rewrite the story by giving mothers and innocent infants a better chance. The infant will go through a closed adoption and the parents free from prosecution.

Our organization staffs a 24 Hour National Crisis Hotline, 1-866-99BABY1. The hotline has provided counseling for over 7000 callers from all over the United States. This service has led to 101 babies surrendered at Safe Haven locations and 12 babies thus far surrendered in a baby box.

HOW DO THE BABY BOXES WORK?

The Safe Haven Baby Box is a state of the art device. It legally permits a mother in crisis to safely, securely, and anonymously surrender her unwanted newborn. The Baby Box is a climate controlled safety device provided for under a state's Safe Haven Law. The installation of the box occurs on the exterior wall of a firehouse or hospital.

Prior to the box installation, tests occur at every stage of design, development, and deployment. It features multiple alarms in the device which alert first responders there has been a baby surrendered. The boxes alarms are tested weekly to ensure there will be no failures. None of these alarm systems have ever failed. The staff responsible for the box is trained on how the device operates.

The parent opens the door to the baby box, which triggering a silent alarm and a call goes to 911 dispatch. The infant is placed in a medical bassinet that is a feature for additional safety. A sensor located on the inside of the box triggers a second 911 dispatch call. The exterior door automatically locks upon placement of a newborn. Within five minutes the infant will be rescued by first responders. An interior door allows a medical staff member to secure the surrendered newborn from inside the designated building. Evaluation of the infant occurs including medical examination at the hospital.

Why Do Communities Need Safe Haven Baby Boxes?

The points below are from leaders of communities who supported the installation of the Baby Box in their community.

It provides the community an opportunity to play a role in proactively saving the lives of children since many are not aware of the Safe Haven law.

.....

Lack of knowledge about the law and prohibiting anonymity has historically produced catastrophic and devastating results of babies being abandoned.

.....

Many women in crisis want and need anonymity when surrendering an infant, either because of fear of being recognized, the stigma associated with the surrender, or fear of prosecution due to the lack of knowledge and misunderstanding of the Safe Haven law.

.....

We hope and pray for a face-to-face surrender as it benefits both the mother and infant. The Safe Haven Baby Box hotline provides counseling to women in crisis and only suggests the Baby Box when it is the last option.

.....

The Baby Box is tangible, and the Safe Haven law is not. By having a Baby Box in the community, you are providing an opportunity to further educate about the law.
