

SUPPORT OF HB 2227

To: Mindy Sieve<mindy.sieve@house.ks.gov> (785) 296-7663, chair
Rep. Leo Delperdang and members of the House Committee on Energy,
Utilities and Telecommunications.

My name is Kent W. Rowe, my address is 3353 N 159th E, Wichita, Ks
67228<harkglider@yahoo.com> I served a term as Mayor for Longton,
Ks prior moving to the above address.

Ty Masterson is my senator & Patrick Penn is my representative.

Federal Energy Regulatory Commission (FERC) Order 2222 went into
effect one year ago. It **requires** Independent System Operators and
Regional Transmission Organizations in the U.S. to develop plans that
give Distributed Energy Resources **access to wholesale energy markets**.
HB 2227, obviously, complies with the objectives of the above order.
Power Purchase Agreements, as written in HB 2227, verify the
framework to implement the FERC 2222 Order.

Without the adoption of HB2227, electrification cannot move forward
in the state of Kansas. Surely, failure to institute the provisions outline
in FERC Order 2222 will lead Kansas into Federal Court. **Vote YES on
HB2227.**
