

House Federal & State Affairs Committee
House Bill 2807
Proponent Testimony of David M. Copeland
11628 Carter
Overland Park, KS 66210

Chairman Carpenter,

I support passage of HB 2807.

The authority for the state legislature to select and instruct delegates for an Article V amendment convention is incidental to the enumerated authority of the state legislature to make application for such convention.

The absence of a method of selecting or instructing delegates is regularly quoted as a reason to oppose passing a resolution applying for a convention. As a volunteer for the Convention of States Project I am pleased to see the legislature recognize the need for this bill and exercise its authority to act in anticipation of any future Article V convention.
