

Chairman Carpenter, Vice-Chair Kessler,  
Minority Leader Hoye, and esteemed  
committee members,

I am writing you to express my absolute  
support for HB2803, the Kansas Gun  
Rights Preservation Act.

It has become painfully obvious that our  
federal government has degraded,  
attacked, and limited many of our  
Constitutionally guaranteed rights.....none  
so much as our Second Amendment  
protected inherent right to keep and bear  
arms. It is critically important in our  
attempts to reign in an overreaching  
federal bureaucracy, to not assist them in  
their attacks on our citizens rights....and  
definitely not using our own taxpayer

dollars against us (as has become common practice now on many fronts). Many of the "rules and regulations" that are put in place are in direct violation of the United States Constitution.

We the people grant limited power to our government, by the consent of the governed. It is just for us to not participate in, and quite frankly to nullify, infringements on our Constitutionally guaranteed, and protected from government encroachment, rights.

I ask for you to support HB 2803 which will codify that Kansas tax-payer resources including law enforcement will not be used to participate in any violation of law-abiding citizens Constitutionally guaranteed Second Amendment rights.

Thank you,  
Dale Enyart, Jr
