

2.21.24

House Health and Human Services Committee  
Hb 2791  
Proponent  
Written only

Madam Chair and Committee

I am a Proponent of Hb 2791.

The state and our taxes should not pay to mutilate a child.

We must protect our children. Their brains are not fully developed until 25 yrs of age. They must have resources against the medical professionals when they find their selves in trouble.

Please protect our children and pass out Hb 2791 favorably out of committee.

Thank you,  
Debbie Detmer
