HB2030 non-public school student activities

PROPONENT

January 24, 2023 @ 3:30pm

Dear Committee Members,

I am writing to you in support of HB2030.

I am a homeschool parent and tax payer in Sedgwick County. As such, I feel that every opportunity provided with my tax dollars should be available to my children. Passing this bill is a win-win for the district and families. Teams would have more players available, more parental involvement, and more cash flow with more fundraiser support. Our children would have the opportunity to be part of a team, learn the valuable lessons that sports and activities have to offer, and support their community in this way. We understand that many other states have passed similar bills.

We understand that we as homeschool families would have to meet certain criteria to be allowed to take part. We are only asking for the **opportunity** to participate.

Please vote "yes" in support of this bill and our children.

Respectfully,

Erin M Sullivan
Mulvane, Kansas
