Chair Tyson and Committee Members,

I am a proponent of SB 128; the families who believe the public schools are failing their children should receive support through this tax credit.

Is it possible to eliminate school taxes for all parents/residents not using public schools?

The reality is that many families are choosing to leave public schools for different reasons. They should not have to pay for a government system they do not use; they should get this tax credit.

Please pass SB 128.

Thank you,

Most sincerely,

Jill O'Connor
