RE: HB 2201 – Prior Year Tax Info on Valuation Notices
In Support – Written Testimony

Thank you to the Chair and the Committee for the opportunity to provide this testimony.

The League of Kansas Municipalities supports transparency in the taxpayer notification process, as it benefits all citizens. It helps everyone better understand how tax dollars are spent and be more aware of actions taken by local governments.

The League asks you to support HB 2201, as it continues to provide taxpayers with information regarding valuations related to the property they own. This information is already public record and can easily be placed on most valuation notices.

We do ask that if any County has to make substantial changes to their valuation notices that will lead to increased costs, The Legislature assist with the additional cost.

Thank you for your time and consideration of these issues. I am always available to provide additional information and answer any questions you have.

Spencer Duncan
