

Honorable Beverly Gossage, Chairwoman
Senate Committee on Public Health and Welfare
Kansas Capitol
Room 548 South

Re: Oral/written Proponent testimony, SB 391

Dear Chairwoman Gossage and Committee:

My name is Debra Mize, from Overland Park.

In my testimony yesterday on SB 390, I mentioned President Eisenhower's important and, as we now know, prophetic speech. In 2020, we witnessed an overreach of government that we cannot let it happen again. Rights were violated and propaganda was labeled as truth. The truth was construed as misinformation by both our elected and unelected government officials.

Today, I am asking you to support SB 391 to curtail such overreach in the future. You have a duty to never again allow these unelected government agencies to misuse their power over the people of Kansas. And, you must!

The "military-industrial complex" we face not only includes the National Institute of Health but also global organizations such as the World Health Organization and the United Nations who have been given increasing amounts of power and money by our federal government.

This ultimate power given to various agencies was in many cases abused as they used their authority to infringe on the liberty and freedom of the People. These unelected officials sought to restrict our ability to go to work, school, and places of worship along with seizing our right to visit our loved ones or even be with them when they needed us most. Then they coerced health facilities to force medications and procedures on us against our wishes and religious beliefs. In some Kansas hospitals this is still happening today.

In this revolution of power and scientific medical research, we must alert ourselves to the danger that public policy can become captive to medical elitists like Dr. Anthony Fauci, who is an unelected and questionable expert.

I urge you to pass SB 391 out of committee to begin to make the changes necessary to protect these fundamental rights in our Kansas Constitution.

Respectfully,
Debbie Mize
Overland Park, Kansas
