My name is Michele Boy and I am a registered voter in Hamilton County. I support HB 2094 as a mother and a citizen of America. I believe in parental rights and my right to informed consent. We have the right to bear arms the right to defend ourselves yet we don't have the right to informed consent when it comes to injecting our children with viruses and toxins. I do not believe all children react the same. I myself have had serious reactions to medications that friends and family did not. As a parent it is my responsibility to protect my child. I am my daughter's advocate. Thank you for your time
