Hospital

Hospitals are healthcare institutions that provide patient treatment by specialized staff and equipment. Hospitals most commonly provide overnight stays for people with serious or life threatening health problems, emergency care, and surgical care. The KanCare MCOs contract with hospitals to provide these services to their members. The access standard for both urban and rural counties is that a hospital be available within 30 miles of the member's residence.

Endocrinology

Endocrinology is the study of the various hormones and their actions and disorders in the body. The common diseases and disorders of the endocrine system that endocrinologists deal with include diabetes mellitus and thyroid disorders. The KanCare MCOs contract with endocrinologists to provide these services to their members. The access standard for urban and semi-urban counties is that an endocrinologist be available within 25 miles of the member's residence. For rural and frontier counties, an endocrinologist should be available within 100 miles of the member's residence.

Obstetrics/Gynecology (OB/GYN)

An obstetrician/gynecologist (OB/GYN) is a physician who both delivers babies and treats diseases of the female reproductive organs. The KanCare MCOs contract with OB/GYNs, including specialists in maternal fetal medicine and certified nurse midwives, to provide these services to their members. The access standard for rural and semi-urban counties is that an OB/GYN be available within 15 miles of the member's residence. For rural and frontier counties, an OB/GYN should be available within 60 miles of the member's residence.

Optometry

An optometrist is a health care professional who is licensed to provide primary eye care services. The KanCare MCOs contract with optometrists to provide these services to their members. The access standard for both urban and rural counties is that an optometrist be available within 30 minutes transport time of the member's residence. The plans have used 30 miles as a proxy for 30 minutes transport time.

Retail Pharmacy

Retail pharmacists are medical professionals who prepare and sell prescription drugs as directed by physicians. Pharmacists use their knowledge and training to counsel customers on the appropriate dosages as well as provide instructions concerning the safety of combining certain medications. The KanCare MCOs contract with retail pharmacies to provide these services to their members. The access standard for urban and semi-urban counties is that a retail pharmacy be available within 10 miles of the member's residence. For rural and frontier counties, a retail pharmacy should be available within 30 miles of the member's residence.

Behavioral Health

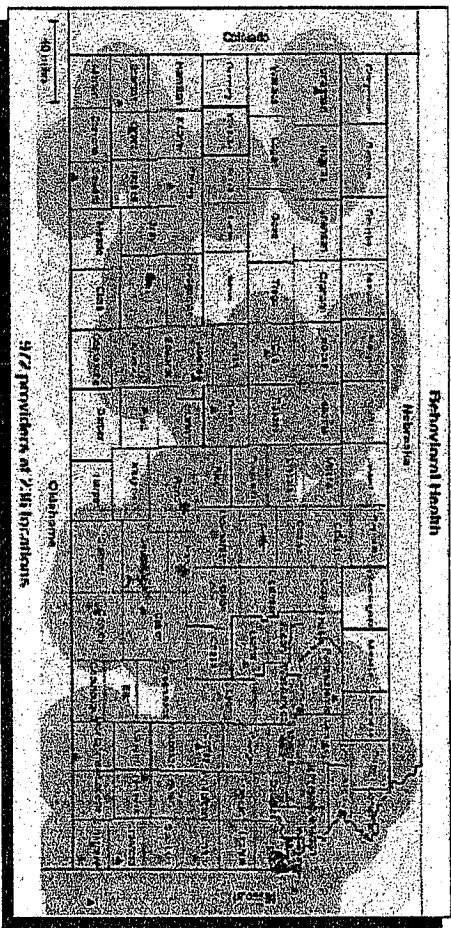

Behavioral healthcare refers to a continuum of services for individuals at risk of, or suffering from, mental, behavioral, or addictive disorders. The KanCare MCOs contract with behavioral health providers, including mental health and substance use disorder providers, to offer these services to their members. The access standard for urban and semi-urban counties is that behavioral health services be available within 30 miles of the member's residence. For densely-settled rural counties, behavioral health services should be available within 45 miles of the member's residence. For rural and frontier counties, behavioral health services should be available within 60 miles of the member's residence.

The KanCare MCOs were instructed to exclude Community Mental Health Centers (CMHCs), Psychiatric Residential Treatment Facilities (PRTFs), and Regional Alcohol and Drug Assessment Centers (RADACs) when creating these maps, as all of these providers must be in network for all plans due to the nature of service they provide.
