Testimony on HB 2599  
Senate Transportation Committee  
March 7, 2012

Chairman Umbarger and members of the Senate Transportation Committee, I am Bob Bethell and I am before you today in support of HB 2599.

As many of you know I have an interest in antique cars and have been involved with the creation of license plate of the year of origin laws for the hobby. HB 2599 will, in my opinion, be the last of the bill that will deal with this issue.

The dilemma that has been haunting me for a number of years is what to do with the series plates that are currently in use in Kansas. I believe the technology that is presently available and used by the County Treasurers in Kansas will allow for an easy transition regarding those cars that are now approaching the category of "antique vehicle".

Mr. Chairman, I would be pleased to stand for questions.
