

2012 Kansas Statutes

12-1788. Same; creation of district by ordinance. If the governing body of the city, following the public hearing, determines it advisable and in the public interest to establish an improvement district, it shall create such district by ordinance which shall contain the following: (1) The name of the district and a description of its boundaries; (2) a summary of the services to be provided within the district; (3) the methods which will be used to finance such services; and (4) the terms of members, method of appointment and duties of the district advisory board provided for by K.S.A. 12-1790. The boundaries of the district may include less territory than that described in the resolution of intent but may not include any territory not described in such resolution.

History: L. 1981, ch. 61, § 8; July 1.
