

2012 Kansas Statutes

17-1916. Same; notice to utility. The applicant shall, upon the issuance of such permit, if the application states that it will be necessary to cut and move, raise or in any way interfere with any wires, cables or other aerial equipment of any public or municipally owned utility give not less than fifteen (15) days written notice to the public or municipally owned utility owning or operating such wires, cables or other aerial facilities, or to their agents, of the intent to move a structure, giving the time and location of the applicant's moving operations. Should the moving operation be delayed, then applicant shall again give the public or municipally owned utility not less than twenty-four (24) hours advance notice of the actual operation.
