20-2626. Purchase of service for VISTA service. Any member of the retirement system for judges may purchase service credit for periods of service in the United States volunteers in service to America (VISTA) which commenced on or after January 1, 1962. At the election of the judge, the benefit for each such period of service shall be equal to either 1% or 1.75% of the final average salary of any such judge. Such judge may purchase such service credit by making application therefor prior to date of retirement at an additional rate of contribution in addition to the employee's rate of contribution as provided in K.S.A. 20-2603 and amendments thereto, based upon the judge's attained age at the time of purchase and using actuarial assumptions and tables in use by the retirement system at the time of such purchase. Such additional rate of contribution shall commence at the beginning of the quarter following such election and shall remain in effect until all quarters of such service have been purchased. Any such judge may purchase service credit as described in this section by electing to effect such purchase by means of a single lump-sum payment in lieu of employee contributions as provided in this section in an amount equal to the then present value of the benefits being purchased as determined by the actuary using the judge's attained age, annual compensation at the time of purchase and the actuarial assumptions and tables then in use by this system. The lump-sum payment shall be made immediately upon being notified of the amount due. The provisions of this section shall be effective on and after July 1, 2000.
