

2012 Kansas Statutes

32-871. Same; site selection. The secretary shall select sites for resorts which are adjacent to existing or proposed federal reservoirs and are determined to be most feasible from evidence gathered by the secretary in support of the sale of bonds as authorized by K.S.A. 32-867 through 32-873. The secretary may contract for a feasibility study as an aid in determining the location of a site. In determining the exact location of a site prior to acquisition, the secretary shall consider, among other factors, ready access from both nearby interstate or interstate connected controlled access highways and public transportation systems and facilities.
