

2012 Kansas Statutes

65-1,105b. Information to be given parents or guardian of child entering school for first time; assistance of secretary of health and environment. The parent or guardian of any child entering school for the first time in this state, upon admission of such child, shall be informed by the board of education or other governing authority of such school of the provisions of K.S.A. 65-1,105 and 65-1,106, and amendments thereto, and of the location of the nearest facility providing blood tests for sickle cell trait and sickle cell anemia. The secretary of health and environment shall provide boards of education and other governing authorities of schools with such information and assistance as may be necessary to comply with the requirements of this section.

History: L. 1978, ch. 233, § 3; July 1.
