

2012 Kansas Statutes

76-810. Legislative findings. It is hereby found and declared that the provision of additional medical education and clinical facilities as part of the university of Kansas medical center in Kansas City, Kansas, is in the public interest and will promote the health, safety and welfare of the people of the state and will both foster the training of, and attract to said medical center, additional medical and paramedical personnel urgently required to serve the needs of the people and of the state. It is further found and declared that the project authorized under this act will alleviate an acute shortage of medical school and hospital facilities at the university of Kansas medical center and that the financing of such project through the issuance of revenue bonds and the appropriation of state funds will expedite and facilitate the construction of these urgently needed facilities with substantial savings in interest and other costs.

History: L. 1973, ch. 380, § 1; April 25.
