

Midwest Energy, Inc.

Midwest Energy, Inc., is Kansas' only combined electric and natural gas cooperative. It is also Kansas' only electric cooperative serving retail customers that owns and operates power plants and a transmission network.

Headquartered in Hays, Midwest Energy serves more than 91,000 electric and natural gas customers in 41 central and western Kansas counties.

With just 285 employees, Midwest Energy maintains more than 11,000 miles of transmission and distribution line, and 3,000 miles of natural gas pipeline. Midwest Energy is a leader in energy efficiency, serving a growing base of industrial, agricultural and residential customers.
