

SESSION OF 2013

**SUPPLEMENTAL NOTE ON HOUSE BILL NO. 2146**

As Recommended by House Committee on  
General Government Budget

**Brief\***

HB 2146 would amend existing law concerning pharmacists and pharmacies relating to the cancer drug repository program. The bill would repeal the Cancer Drug Repository Act.

**Background**

HB 2146 was introduced by the House Committee on General Government Budget at the request of the Office of the Repealer.

There were no proponents, opponents, or neutral testimony for this bill. A memorandum from the Office of the Revisor of Statutes indicated the cancer drug repository program was created in 2005. The program allowed cancer drugs to be donated and dispensed to cancer patients who are residents of Kansas and meet certain eligibility requirements. The Office of the Revisor of Statutes indicated the cancer drug repository program is no longer in use, and all drug donations are dispensed through the Utilization of Unused Medication Act enacted in 2008.

The Division of the Budget fiscal note indicated there would be no fiscal effect on the Board of Pharmacy.
