Dear Capitol Mural Committee

Feb. 12 2016

Back in 1966 our 8th grade class from Leavenworth had the thrilling opportunity to visit our State Capitol. I could have never dreamed then I would have a chance to paint a Historic mural for its walls. In 1973 I applied for the upper rotunda but as a 21 year old I wasn't ready for the challenge. In 2012 while listening to the radio I heard of plans for the Brown vs. the Board of Education project, Immediately I became excited and knew it was my time to pursue this incredible opportunity.

I have made the suggested revisions and I hope you'll find them satisfactory. If selected I plan to make a plaster model and use live models to give me the information needed to create the rendering and dimension necessary. I'd like to make this the most outstanding work I've ever created. I hope you'll like my ideas appreciate my efforts.

Thank You!

Sincerely

Michael Young
