

SESSION OF 2015

SUPPLEMENTAL NOTE ON SENATE BILL NO. 124

As Amended by Senate Committee on Natural
Resources

Brief*

SB 124 would authorize the Secretary of Health and Environment to adopt rules and regulations on the land-spreading of solid waste generated by drilling oil and gas wells. The bill would eliminate the sunset date of July 1, 2015, for the land-spreading program managed jointly by the Kansas Department of Health and Environment (KDHE) and Kansas Corporation Commission (KCC).

The bill would require the seller of any property where land-spreading has occurred to disclose the land-spreading to any potential purchaser of the property. In addition, the bill would require the KCC to annually present a report on land-spreading to the Senate Committee on Natural Resources, Senate Committee on Ways and Means, House Committee on Agriculture and Natural Resources, and House Committee on Appropriations.

Background

The bill was introduced by the Senate Committee on Natural Resources.

In the Senate Committee, the Director of the Bureau of Waste Management, KDHE, and the Director of the Conservation Division, KCC, provided testimony in favor of the bill. The proponents stated land-spreading has only been utilized in two cases; however, certain drilling companies

active in other states prefer land-spreading and they may someday expand their business activity in Kansas.

A representative of the National Waste & Recycling Association presented testimony in opposition to the bill, stating the Association's members, among other concerns, are concerned with the risk of soil contamination that land application of these wastes could have.

The Senate Committee amended the bill by adding a requirement for a seller of property where land-spreading has occurred to notify a potential buyer of the property of the date the land-spreading occurred. In addition, the Committee added language requiring an annual report to several legislative committees by the KCC on land-spreading.

The fiscal note prepared by the Division of the Budget states passage of the bill would have no fiscal effect on KCC or KDHE operations.
