

2016 Kansas Statutes

25-2011. Correlation with other elections. Primary and general school elections shall be conducted jointly with other elections held at the same time insofar as is practicable. Any election officer having responsibility for any other such election shall cooperate with the election officer of the school election, and if a difference arises which cannot be agreed upon, determination of the difference shall be made by the county election officer unless such difference involves a question the determination of which is provided by law to be made by the secretary of state. In addition to other differences which the secretary of state may resolve, he shall determine any matters which cannot be agreed upon locally by county election officers and which occur in relation to territory of a school district which is outside of its home county. Any determination of a difference made by the officer responsible under this section shall be conclusive.

History: L. 1968, ch. 59, § 25; July 1.
