

2016 Kansas Statutes

74-99b62. Purpose. The bioscience research and development voucher program act will incentivize individuals and organizations engaged in the business of bioscience to locate and grow in the state in order to make Kansas a national leader in bioscience, advance scientific knowledge, promote research and development, and improve the quality of life for the citizens of the state.

History: L. 2004, ch. 112, § 35; July 1.
