Testimony in support of HB2678
Choose Life License Plate
Transportation Committee

Thank Mr. Chairman Proehl and Committee, and thank you for hearing/reading my testimony.

Our names are Marvin and Dorothy Taylor, we are registered voters in Bourbon County Kansas.

We feel obligation to follow that everyone has a right of life and to have an advocate when they would not be able to speak for themselves.

This gives them opportunity to not be stopped from this right of life by ending that life before it can be born into their ONGROWNING person.

Once the prevention of ONGROWING life happens there is no alternative to choose for themselves.

These unborn have no opportunity to choose their life path if someone else chooses to interfere.

We realize this ending of life process is none other than child sacrifice in order to stop an inconvenience.

Therefore, We would like to voice our support for HB2678, the Choose Life license plate because it would bring this thought of 'choice to live freedom' out into the limelight and not have it hidden in shame/guilt/darkness.

We hope all of you who have the choice to choose whether to aid these who need an advocate or not will take time to think of your own choice in your own families and cherish

the gift of life so that you will decide to vote permitting support for these who depend on you via our choosing you to do so.

Thank you Chairman Proehl and Committee for your time and consideration it was/is a honor to speak before you. I hope/pray that when you work this bill you would pass it out favorably from your committee.

Thank you,
Marvin and Dorothy Taylor
