Michelle Martin

Written opposition testimony to SCR 1602  
Senate Assessment and Taxation Committee

Chairwoman Tyson:

I would like to voice my strong opposition to KS SCR 1602. To limit the budget from ever expanding according to Kansas' changing population would severely handicap our schools and their capacity even more than they already are. We are in a budget crisis, and to prevent the budget from ever expanding seems ludicrous and insane to me. Good schools, good libraries, and good programs made Kansas great once. I don't want to see Kansas go further and further down the drain of debt and poor services. I'll probably move away if this continues, because I don't want my future children to have inadequate schools.

Thanks!
