

Dear Mr. Suellentrop

I live in Overland Park and I am disabled. I am not a free loader. I went back to college, in 2010, in my forties and graduated with a bachelors degree. I was eager to find a job but three weeks after I graduated, I was in a motorcycle wreck and now have an enclosed head injury and severe back injury. Because of these injuries I am unable to work and now have to depend on Medicare and Medicaid to survive, I am living below poverty line. I hope you will help those who have no way to help themselves and pass Senate Bill 252 to expand KanCare. I need your help.

Thank you
Andra Fergerson
