JOINT COMMITTEE ON INFORMATION
AND TECHNOLOGY
JOINT COMMITTEE ON KANSAS SECURITY

To Members of the Senate Transportation Committee

Senate Bill 63 came about after several people contacted me on the article that I have attached to my testimony. After working with revisors and law enforcement we came up with a draft that would allow cities the opportunity to address this issue. Transportation network company drivers play a large role in keeping impaired drivers off the streets of our cities.

In my city, particularly in the entertainment district where sometimes on Friday and Saturday nights it can become very crowded and busy, these lights make it easy for a customer to find their ride. Transportation networks make it convenient for people to make the decision not to drive impaired. I respectfully request this committee to give favorable consideration to this bill.

Senator Mike Petersen
