I'm an American, and like all Americans I believe in democracy. This overwhelming support for such a system is the reason this country has survived for 244 years and ~~if~~ if we continue to honor it, the next 1000 years. This is one of the most important days in American history. We are once again at a point where we have to decide how much power we should allow a single person, Laura Kelly has crossed the line from safety precautions to full blown control over the ~~titelhood~~ ^{directhood} of Kansans.

The revolutionists fought for the right of the American people to be represented, and the fact that I am sitting here, listening to Americans express they were wronged by the government with no chance of changing it makes me worry it ~~was~~ was all for nothing. Restriction on Laura Kelly's Tyranny is the only route to maintaining a functional democracy. ~~If we claim to~~ be you Senators represent me and my colleagues so I ask you please enact restrictions. This will go down in history either as a triumph of the American people, or a that of rights and power of the executive branch.
