

2020 Kansas Statutes

12-2716. Cities owning waterworks may contract for water supply. All cities of the state owning their own waterworks are hereby authorized and empowered to contract with the United States of America (or an agency or instrumentality thereof) for the furnishing to such contracting city a municipal water supply from storage and distribution facilities constructed and owned by the United States of America pursuant to the acts of congress relating to the reclamation and irrigation of lands and related subjects.

History: L. 1957, ch. 239, § 1; March 18.
