

2020 Kansas Statutes

48-937. Communications systems during disasters; recommendations to governor. The division of emergency management shall ascertain what means exist for rapid and efficient communications during a disaster. The division of emergency management shall consider the desirability of supplementing these communications resources or of integrating them into a comprehensive state or state and federal telecommunications or other communications system which may be established for purposes of emergency management. In studying the character and feasibility of any such system or its several parts, the division of emergency management shall consult thereon with the secretary of administration and the executive chief information technology officer and evaluate the possibility of the multi-purpose use of such a system for general state and local government purposes. The division of emergency management shall make recommendations regarding such communications systems to the governor as appropriate.

History: L. 1975, ch. 283, § 17; L. 1994, ch. 248, § 21; L. 2013, ch. 62, § 3; July 1.
