

January 28, 2022

To whom this may concern, I work for an agency called Trinity out of Salina KS. I have not been with them to long but long enough to know I made a great decision on working with this company. I need this job to pay my bills. I am older and my kids are grown up now, but I still have to live and support myself. I however love this place. When I need to talk to anyone, there is always someone there for me. This is a job that I can pick my days to work that works out perfect for me. I did say my kids are grown but I have grandchildren I help take care, so this works out perfect for me. I have been a Certified Nursing Aid for 16yrs now, and trust me we don't get enough pay for what we do. We are a team and our job is not easy by no means. I have never worked for an Agency ever before Trinity is my first and I like it a lot. I have worked in many facilities and don't get enough pay that I deserve. If I lose Trinity, I will not go back to a facility who pays me nothing to work. Like I said I have bills to pay. Let's just be real you can go to work at Subway or Mc Donald's and make more than what these facilities are paying their employees. This field of work I love doing or I would not have stayed in as long as I have. Now it is getting bad with this pandemic that these poor residents are not getting the care they need." Why you may ask "not enough employees and they deserve more. These agencies helps when facilities are in need to give the care the residents deserve. I mean haven't they suffered enough let's not take that away, because they need and deserve the care.

Sincerely, Laura Collins
