Good morning,

Please let the committee know that I oppose HB2550. Transferring funds to private schools will only privatize education and allow greedy corporations to make money at the expense of students.

"Studies of voucher programs across the country have found that students who participate in private school voucher programs fare worse academically than students educated in public schools, and in some cases dramatically worse. In addition, voucher programs undermine already struggling public schools. Other damaging effects of vouchers include loss of civil rights protections, increased segregation, and erosion of the separation of church and state. Private school voucher programs often lack accountability and transparency, yet cost millions of public dollars."
