**MEMORANDUM**

To: House Committee on Energy, Utilities and Telecommunications  
From: Office of Revisor of Statutes  
Date: March 16, 2023  
Subject: Bill Brief – Senate Concurrent Resolution 1603

Senate Concurrent Resolution 1603 urges the President of the United States to:

- Stop importing all oil, gas and biofuels from America's adversaries.
- Reject unscientific environmental mandates that restrict domestic energy production and raises costs for families.
- Support policies that ensure America's long-term energy affordability, security, leadership and progress, including actions to increase investment in domestic refineries and natural gas production.
- Expand domestic energy production and ensure energy reliability and affordability for consumers.
- Reevaluate energy policies that have curtailed domestic energy production.
- Utilize America's abundance of natural resources and relationships with allies as leverage against the Russian regime.
